

## Proposals for the agenda of the IGF 2010

### - **Internet and minorities, young gangs and gangsters/ “corner boys”, fragility of migrant population**

- Issues specific to this type of population, the role of the Internet, how the Internet can help improve the social inclusion of migrants. How to avoid the ghettoization?
- Fragility of this population with regard to Internet and ICT/ Particular problems faced in big cities.
- Young people and children/ e-learning and coaching/ improving school results.
- E-administration and migrant/asylum population/ virtual - dematerialized administrative procedures.
- Particular problems and the role of Internet for elderly people of minorities/migrant population.
- Knowledge and use of Internet by young gangs not for criminal issues but for technical progress/ How to make it possible and use the existing potential?
- Work with children/teenagers/ warning against dangers on Internet, demonstrate their responsibilities/ raise of public awareness.
- Which strategy to develop/ Could the European strategy be implemented in other countries, e.g. Brazilian favelas or townships?

Do the difficult areas all over the world face the same problem including regional/ national idiosyncrasies? Is it possible to have common issues with regard to the Internet?

- How to avoid the implication or involuntary participation of this unsteady/fragile population from sensitive areas involved in all sort of trafficking (prostitution/ drug trafficking/ others)?
- Example of Working Group *CRE* in Strasbourg/ Code of Good practices.

- **Freedom of expression on Internet/racist and xenophobic attacks and expressions**

- How can we insure the freedom of expression on the Internet and to reduce or to avoid racist and xenophobic attacks via Internet?
- Moral violence via Internet and possible consequences in real life.
- Criminalization of racist and xenophobic expressions via ICT.
- Could Intent help/be used in decreasing of this type of violence?
- Fragility of migrant population confronted with these attacks/ European specificity.

- **Users' perspective**

- Users' voice/How to bring users' voice to IGF/The need of users' perspective.
- Users' perspective, e.g. migrant population.
